

ECLIPSE | Perforated Leaning Rail

LEANING RAILS

ECLIPSE | Leaning Rail

Functional design with two optional applications: can be surface-mounted or affixed to shelter or wall. Solid aluminum frame with HDPE slats or perforated aluminum infill. Choose from square or round 2.5" columns. Available in 4', 6' and 8' lengths and comes in a 33" ADA compliant height. HDPE can be laser branded with custom logo or design. Frame is powder coated to the color of your choice (see Brasco finishing options).

CONTOUR | Leaning Rail

Round, modern rail that can be surface-mounted or affixed to a shelter or wall. Constructed from 2.5" round aluminum extrusion, is available in 4', 6' and 8' lengths and comes in a 33" ADA compliant height. Powder coated to the color of your choice (see Brasco finishing options).

CONTOUR | Leaning Rail

Product	Item #	Description	Size (W x H)
