

# 2-SIDED AD BOX

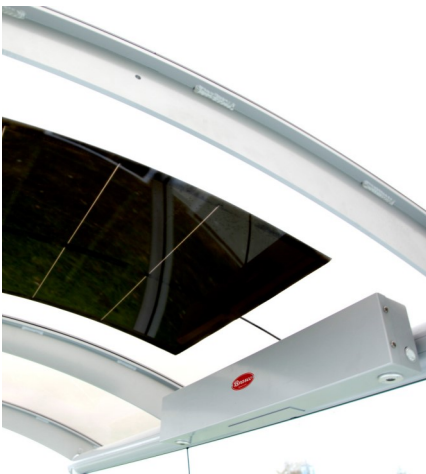

REVENUE-GENERATING  
OPTIONS FOR ANY SHELTER

**Top:** Eclipse Series Shelter with arched roof and 2-sided backlit ad box.

**Bottom Left:** Solar powered solutions for backlit ad box lighting. Brasco utilizes low profile flexible solar panels whenever possible to provide the cleanest and most vandal resistant designs.

**Bottom Center:** 2-sided ad box shown on 5' x 12' Eclipse Series Shelter.

**Bottom Right:** Illuminate advertisements with backlit LED lighting. Brasco provides low maintenance solar powered solutions.

# 2-SIDED AD BOX

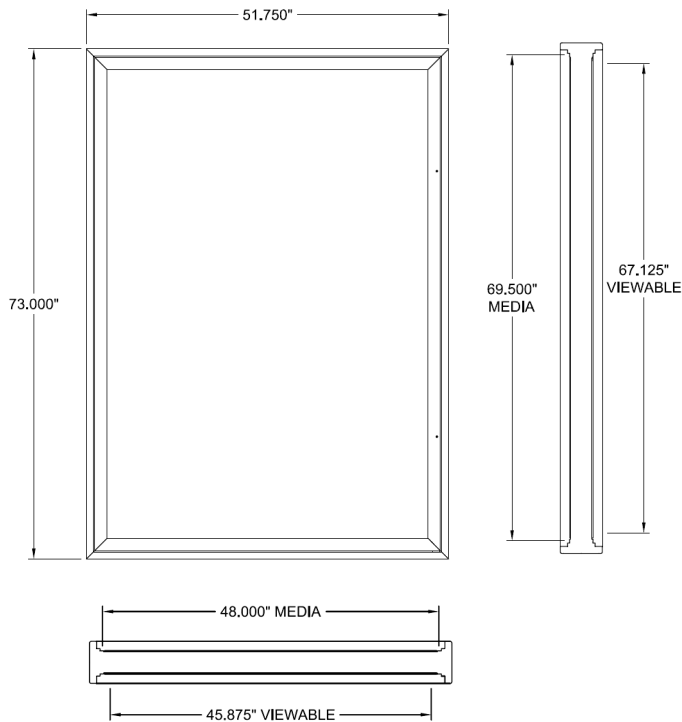

REVENUE-GENERATING  
OPTIONS FOR ANY SHELTER

Brasco's 2-sided advertising displays are made in the USA from top grade aluminum that will never rust. Select from a variety of options to tailor the display to your needs including the powder coat painted finish and shelter configuration to optimize branding. This display offers industry standard media sizes, vandal resistant key lock access, and a highly polished aesthetic.

Select from either our unlit or LED illuminated display, powered by either AC or solar power. Brasco's advertising box features mounting clips that hold advertising media with a thicknesses ranging from 4 mil - 12 mil and weighing up to 3.5 lbs.

Expect a polished advertising box that will provide optimal illumination and high-end advertising.
