

# THE CLASSIC

SQUARE TUBE COLUMNS WITH  
OPEN OR ROOF OPTIONS

Brasco entered into the retail market with its Classic Series cart corral by applying the modular, easily customized design principles of our bus shelters. The Classic is a quality corral with a low profile and simple design and is available in a variety of widths and lengths. Choose from the low profile base model, or one of four roof options.

We deliver pre-assembled wall sections for ease of installation, and all models are modular for simple replacement over time.

The Classic series is available in single and double lengths.
