

# ECLIPSE LIGHT

The Eclipse light fixture provides optimal LED performance, a tamper-resistant design, and low-cost operation. Its features include over 50,000 hours of operating life, adaptive mounting options, and AC or solar-powered performance.

The Eclipse light fixture is made from aluminum so it will never rust and is powder coated to match any shelter color. Brasco proudly makes this fixture in the USA with a UL listed LED strip, offering lasting safety and performance.

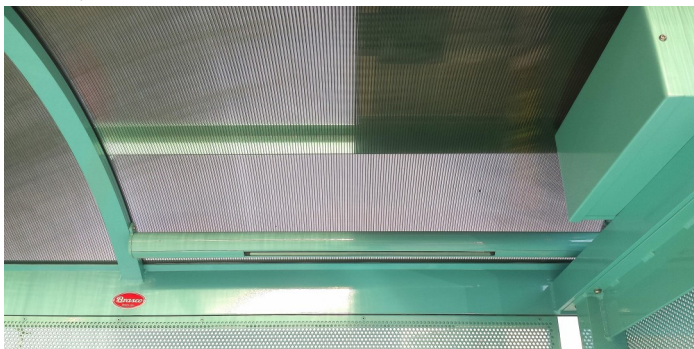

Available in 12" and 24" lengths.

LF-EC-12 

LF-EC-24 

**Below:** 24" Eclipse LED light, flush-mounted to arched ceiling. Battery securely mounted in tamper-resistant box.

## Standard Specifications

### POWER

6 Watts / Ft. LED
