

Limited Access Fees

All shelter orders from Brasco International are shipped through freight carriers. There are certain circumstances where freight carriers will charge a "Limited Access Fee" in addition to their standard freight charge. A limited access fee occurs when the freight carrier must take extra consideration due to the specific location of the delivery. This may be due to the delivery site not being open to the public or not having personnel readily available to assist with the offloading of the shipment. This charge may also be applicable if the site requires additional security inspections. The Limited Access Fee is \$250.

Limited access fees commonly apply to the following delivery locations:

- Construction sites
- Fairs and carnivals
- Farms
- Camp sites
- Zoos
- Churches, mosques, synagogues, temples, places of worship
- Schools and universities
- Storage facilities
- Military bases and installations
- Mine sites
- Prisons
- Piers
- Government facilities
- Hotels, motels, and resorts
- Doctors offices and hospitals
- Strip malls
- Reservations

Brasco will notify the customer when the limited access fee of \$250 applies to the delivery location. The limited access fee will be assessed to the order. Please let your account manager or project manager know if you have any questions.
